## About us

**CLINICCARE is one of the best professional skincare collections in the world.**

Based in Sweden, CLINICCARE are a leading expert in applied scientific cosmeceuticals which deliver optimal concentrations of pharmaceutical grade small molecular Hyaluronic acid, vitamins, antioxidants, peptides and other powerful active ingredients. These act where they are needed most – below the skin's surface - to rejuvenate from within and improve overall skin health and appearance.

Our special formulas provide outstanding results and we use state-of-the-art technology to ensure the highest levels of quality and safety.

As well as a professional range, CLINICCARE have created a home care range for your clients, post treatment, to optimise and maintain skin health until their next visit.

## Why choose CLINICCARE?

Low molecular Hyaluronic acid, EGF (Epidermal Growth Factor) and Beta Glucan are just three of the core components of CLINICCARE skincare.

Hyaluronic acid plays a vital role in metabolic processes such as cell interaction and synthesis. It helps protect cell immunity and helps prevent infections. One of its most important properties is its ability to retain moisture – up to 1000 times the weight of the acid itself. The natural repair of skin cells is directly dependent on levels of Hyaluronic acid, which, unfortunately, decline as you age. This leaves skin more susceptible to toxins. That is why it is so important for anti-ageing formulas to include low molecular weight Hyaluronic acid which will penetrate to deeper levels of the skin, keep collagen synthesis up, as well as retaining skin moisture.

Another key ingredient is sH-Oligopeptide-1 (EGF). EGF in the body determines how old the skin is and when used in skin care products helps skin stem cells absorb nutrients, speeds up cell metabolism, accelerates skin cell division and growth, and stimulates the synthesis of Hyaluronic acid and glycoproteins. It can also minimize pores and improve skin texture by accelerating cell regeneration and tissue repair. While scars and blemishes are diminished by promoting the growth of new cells which replace cells damaged by UVs.

Beta Glucan is a natural compound, extracted from plants, that helps skin maintain a youthful appearance. It can also help the body's immune system stay active and able to resist bacterial and viral infection, while stimulating skin tissue to re-build surface cells and to restore the collagen structure.

## Peels

### AHA / BHA Chemical Peels (30ml)

The Alpha/Beta Hydroxy acid chemical peels contain a mixture of Glycolic, Lactic and Salicylic acids for penetration of the stratum corneum and epidermis. They are ideal for the professional use of acidic substances to unveil a fresh, even and luminous complexion and encourage skin cell regeneration.

The range includes:

Glow Peel – for an intensive anti-pigmentation effect

Pure peel – for acne treatments and to improve skin texture

Refresh Peel – for anti-ageing and rejuvenation effect

Peel Blender – blending agent to create the correct concentration based on skin type and skin problem

The peels must be neutralised within 3 – 7 minutes with the Clinicare HYAL+ Skin Toner and treatment should be followed with Skin Booster, Sheet Mask and SPF.

MT

### Instant Painless Peel (250ml)

This natural enzymatic peeling gel is a totally particle and pain-free instant peeling gel. Ideal as a pre-treatment, it gently removes dead skin cells leaving the skin clear, smooth and soft.

MT

#### Pure

For deep intensive relief, rejuvenation & hydration to troubled skin

#### Refresh/Tight

For moisture, firmness & wrinkle reduction

#### Glow

For lightening pigmented skin

## Skin Booster

### AHA + EGF Skin Booster (30ml)

A lunch time mesotherapy-like skin stimulation without injections and visible desquamation. Has a mixture of five different Alpha Hydroxy acids (AHA), anti-oxidants, growth factors, with an auto-neutralizing release. Particularly recommended for skin rejuvenation, acne and the prevention and treatment of photo-ageing.

MT

## Facial Sheet Masks

### Sheet Masks (35g)

Available in 3 targeted ranges (Pure, Refresh and Glow), these clean room produced facial sheet masks contain active ingredients such as Argireline, Arbutin (in Glow), DMAE, sH-Oligopeptide-1, Hyaluronic acid and Niacinamide. Suitable for use after chemical peelings, mesotherapy, microneedling, lasers and IPL treatments to restore skin moisture and reduce redness and irritation.

(US) (ION) (M) (OS) (MT)

## Mesotherapy Cocktails

### Mesotherapy Vials (8ml)

Clinicare's range of mesotherapy cocktails contain extremely active ingredients such as Argireline, Arbutin, Beta Glucan, DMAE, sH-Oligopeptide-1 (EGF), Hyaluronic acid, Panax Ginseng and Palmitoyl Oligopeptide for fast acting skin rejuvenation. Available in 3 targeted ranges for the skin (Refresh, Tight and Glow).

The Hair Energy mesotherapy is specially designed to maintain scalp vitality and act on follicle dysfunctions, in order to achieve good anti-hair loss results and improve hair quality.

(US) (ION) (M)

(RF) radiofrequency devices    (US) ultrasound devices    (NFM) needle free mesotherapy device & electroporation    (LED) led therapy devices  
 (ION) iontophoresis devices    (OS) oxygen spray    (M) mesotherapy / micro needling    (MT) manual therapy

## Cleansing

### Lip & Eye Make-Up Remover (500ml)

A gentle make-up cleanser for the most sensitive skin, around the delicate eye area and lips.

MT

### Cleansing Lotion (500ml)

A milky cleanser for fast acting rinse-off cleansing with a soothing silky texture.

MT

### Concentrated Cleansing Foam (100ml)

A concentrated botanical foam cleanser which gently removes dirt, excess sebum and make-up residue.

MT

## Toning

### HYAL+ Skin Toner (500ml)

Hydrates and soothes skin after cleansing. Its unique molecular structure is specially designed for long-lasting and skin-deep hydration.

OS

MT

## Massage

### 2 in 1 Massage Cream (800ml)

This high nutrient massage cream, is specially developed for face and body massage and body treatments with RF-machines. Leaves skin soft and hydrated.

RF

MT

## Essence / Serum

### HYAL+ Moisturising Essence (500ml)

This ultra-intensive, lightweight formula has a high concentration (5%) of low molecular weight Hyaluronic acid and nutrients to nourish the skin with a deep acting concentration of moisture, help form new collagen and stimulate micro-circulation.

## Creams / Masks

These 2 products can be used either as a Gel-Cream or as a Moisturising mask. They create an ideal basis for further treatment.

### 2 in 1 Gel Ceramide (500ml)

Studies have shown that dry and damaged skin is linked to depleted ceramide levels. This 2 in 1 ceramide gel works at the source of dryness to strengthen skin's moisture retaining capacity. Skin is rejuvenated and radiance restored.

### 2 in 1 Gel Vitamin C (500ml)

This 2 in 1 gel contains Vitamin C which studies have shown helps minimise fine lines, scars and wrinkles and stimulates the synthesis of collagen.

## Lip & Eye Cream

### HYAL+ Lip & Eye Renewal Cream (50ml)

The low molecular weight Hyaluronic acid optimises hydration, while Squalane boosts cell regeneration and oxygenation to reverse the multiple signs of ageing around the delicate eye and lip area.

## Moisturisers

### 2 in 1 Moisturising Lotion (500ml)

A hydrating, antioxidant moisturising lotion with Vitamin E and Beta Glucan to help protect the skin against environmental damage. Suitable as a gliding agent for RF technology.

### HYAL+ Moisturising Cream (300ml)

Low molecular weight Hyaluronic acid and Betain help relieve dryness and minimise fine lines. Activates the regenerative process in the skin with strong antioxidant properties.

### Retinol Day Cream (300ml)

Based on the latest peptide technology, this powerful anti-ageing cream is perfect for combating and preventing signs of ageing, smoothing skin and restoring radiance.
